NEW LOOK FOR OLD FAVOURITE

After eight years as one of Indooroopilly Shopping Centre's best-loved cafes, Shingle Inn Indooroopilly has undergone a facelift to re-inject vibrancy and youthful enthusiasm back into the atmosphere of Brisbane's iconic cafe.

The third of Shingle Inn's cafes to open as the company started to expand in the naughties, Shingle Inn Indooroopilly has always been a particular favourite of mums in the local area.

Store Manager Helen Lewis, who has worked for the company for 23 years, says the seating area outside the store in particular is always full of mums and babies.

"We love welcoming parents into our store and watching the love of Shingle Inn develop in a new generation of customers," says Mrs Lewis. "It's one of the quintessential parts of the Shingle Inn experience that families and friends enjoy the experience together and create everlasting memories."

"With the same delicious, fresh selection of cakes and sweet treats or our extensive lunch menu to choose from, it's the Shingle Inn experience we're renowned for but a little bit better! The new high-back chairs are definitely a favourite with customers."

Mrs Lewis says the new surroundings have brought new customers into the business with sales improving since the store's refurbishment.
