HOW TO

CUT YOUR CHRISTMAS CAKE

Shingle Inn's Christmas cake is dense, filled with the highest quality raw ingredients, soaked for three months in brandy and made using our traditional recipe. To make sure you get the perfect slice, instead of crumbs, it's important to use a hot, serrated knife and cut using a sawing action. Discover our full Fruit Cake range in-store or online.

YES, WE DO

Gluten Free

Shingle Inn has a decadent range of products utilising premium Gluten Free Ingredients - that means everyone around your Christmas table will be able to begin their Christmas with their favourite flavours of the festive season.

Choose from traditional Christmas favourites such as Fruit Mince Tarts and Christmas Cake, or select something from our daily cabinet range to treat your gluten free friends and family.

CHRISTMAS PUDDING

3 ways

If you're a traditional Christmas Pudding fan, you'll love a classic glaze using your favourite jam on our Christmas Pudding... or maybe Christmas doesn't truly begin until the smell of warm Brandy Custard Sauce is wafting through the house.

Last year we introduced a new twist on an old favourite – our Golden Syrup pudding that has been carefully created with its own deliciously sweet and sticky golden syrup sauce. Try it with clotted cream or a scoop of vanilla ice cream.
